

# TRANSPORTATION

**WITH THE NAME OF ALLAH, MOST GRACIOUS, MOST MERCIFUL.**

Since no country produces all that is needed by its people, goods have to be bought from other countries.

These goods have to be taken from place to place.

A long time ago, such loads were carried on animals.

We read in Sura al-Nahl (ch. 16): verse 8:-

“And (he has created) horses, mules and donkeys for you to ride and use for show; and he has created (other) things of which you have no knowledge.”

Our Rabb has given humans the knowledge to develop many forms of transport

They are:-

Motor cars, buses, trucks, trains, boats, ships, submarines, helicopters, aeroplanes and spaceships.

Allah (S.W.T.) has also provided us with all the necessary materials to build the various kinds of transportation !

## **Worksheet**

1) How was it possible for humans to have developed the various means of transportation?

---

---

2) Are camels, horses, mules, donkeys, etc. Still used to transport goods? If yes, state in which areas of the world.

---
