

# BEYOND THEIR KEN

**WITH THE NAME OF ALLAH, MOST GRACIOUS, MOST MERCIFUL.**

Because of their materialistic view of life, the unbelievers have succeeded in stifling their minds from some understanding of a future life beyond the confines of the grave.

We read in Sura al- Naml (ch. 27): verse 66:-

“Still less can their knowledge comprehend the hereafter: nay, they are in doubt and uncertain about it; nay, they are blind thereunto!”

No amount of knowledge and intelligence alone can satisfy the cravings of the human soul.

It is divine knowledge acquired through divine revelation that can and does actually engender certainty in the human mind.

Human knowledge can, at best, lead to the conclusion that there must be a divine being and a life after death, but it is divine revelation alone that will change this must be into the certain is.
