

THE TRANSFER OF ENERGY IN THE SOCIAL, POLITICAL, MORAL AND SPIRITUAL SPHERES

WITH THE NAME OF ALLAH, MOST GRACIOUS, MOST MERCIFUL.

We must never lose sight of the fact that our Rabb is the source of all the manifestations of energy and power !

Energy and power manifest themselves in human affairs as well. Our Rabb desires that we devote our energy to promote good and forbid evil!

We read in Sura al-Imran (ch. 3): verse 104:-

“Let there arise out of you a band of people inviting to all that is good, enjoining right, and forbidding what is wrong: they are the ones to attain felicity.”

In order to generate the power of Islam, commitment is essential.

We are reminded in Sura al- Baqara (ch. 2): verse 143:-

“And never would Allah make your (commitment to) faith of no effect. ...”

Just as we observe energy being transmitted in the physical dimension from one state to another, the Holy Quraan speaks of energy being transferred in the social, political, moral and spiritual realm from one state to another !

Here are a few examples:-

- 1) Earnest quest for guidance is transformed into taqwa --- 47: 17
- 2) Striving in our Rabb’s cause leads to guidance --- 29: 69
- 3) True faith and righteous deeds transforms fear into power, security and peace --- 24: 55
- 4) True belief and taqwa transforms into power of discretion, removal of evil and forgiveness --- 8: 29
- 5) By following our beloved Nabie (S.A.W.), our Rabb will love us and forgive our sins --- 3: 31

Now listen to the following :-

“Our beloved Nabie (S.A.W.) said : ‘Allah (S.W.T.) tells me’:- ‘Whoso seeks to approach me one span, I seek to approach him / her one cubit; and whoso seeks to approach me one cubit, I seek to approach him / her two fathoms; and whoso walks towards me, I run toward him / her; and whoso come before me with a world of sins, and believes solely in me, him / her I come before with a front of forgiveness.’ ”

Worksheet

1) Energy and power manifest themselves in human affairs as well. How does our Rabb want us to do this?

2) Quote a verse from Al-Quraan which demonstrates the value of the transfer of energy in the social, political, moral and spiritual sense.

3) Briefly state the benefits for humans as a result of our maker giving us the ability to measure and transfer energy of different kinds.
